

## Instructions for Preparing a Summary for the 14<sup>th</sup> International Symposium on Vibrations of Continuous Systems

**Name1 A. Surname1<sup>\*</sup>, Name2 B. Surname2<sup>#</sup>, Name3 C. Surname3<sup>†</sup>, Name4 D. Surname4<sup>†</sup>**

<sup>\*</sup> Faculty of Mechanical Engineering  
University of Technology  
Address, Postcode City, Country  
email1@address

<sup>#</sup> Institute for Dynamics  
University of Technology  
Address, Postcode City, Country  
email2@address

<sup>†</sup>Institute of Mechanics  
University of Technology  
Address, Postcode City, Country  
[Surname3.Name3, Surname4.Name4]@address

### Summary

Authors are requested to email a 2–4 page summary (including references and figures) no later than March 31, 2025, to :

francesco.pellicano@unimore.it

The uploaded file must be in PDF format and the file name should conform to the following example: Surname1Surname2Surname3\_summary.pdf.

The summary must be written in English. It must contain the full names, addresses and e-mails of the authors. In case of joint authorship, the name of the speaker who will present the paper at the conference should be underlined. The reference marks can be omitted if all authors have the same affiliation.

Equations must be numbered continuously using right flushed arabic numbers in parentheses as shown in Equation (1):

$$\rho A(x)w_{,tt}(x,t) - [T(x)w_{,x}(x,t)]_{,x} = p(x,t). \quad (1)$$

All symbols of the equation should be explained.

Figures and graphs must be included using the same style as in shown Figure 1. The contents of the Figure should be explained in its caption.

Figure 1: Example of a figure and its caption.

A resolution of 300dpi for pictures and 600dpi for line art is suggested, 1px-wide lines in figures should be avoided as they may become invisible in print. There is no limit on the number of figures as long as the total length of the paper is within the specified limit. Figures should be centered on the page.

Tables should be included using the same style as shown in Table 1. The contents of the table should be explained in its header.

Table 1: Example of a table.

T11	T12	T13	T14
T21	T22	T23	T24

References should be sorted in alphabetical order as shown below, where [1] exemplifies the case of a textbook, while [2] is an article in conference proceedings and [3] is an article in a journal.
